After all a perfect pulse  
Led in temptation again  
Concentrated unstable casual  
I'm strong... simply deluxe

Forgotten all the stress  
Forgotten to lose conscientiousness  
Lights in new dimensions  
No speed control

I don't care...  
How corrode is my inner side  
How infirm is my mind  
Led in temptation

Is's like a reflex  
An act committed in the heat of passion  
When I touch you  
You beg me on my knees  
You're not addicted to me  
No I'm addicetd to you!

No matter how is my condition  
No matter how it hurts my soul  
No speed control

I don't care...  
How corrode is my inner side  
How infirm is my mind  
Led in temptation

My love to you is more than the fear  
I don't think about my physical decline
