

My Insanity "Kings Of Plush"

Do you like to follow us?
The invitation leads to a coloured kingdom
Do you want to talk with us?
You have to take off your rags

We're the unknown cuddletoys
And live in space
We abduct you in our empire
You have to call us
The kings of plush!

We are the kings of plush

Diamonds and pearls show us the way
We are the friends who look nice everyday
We transform to wizards, magicians
Who radiate pleasurable sensations

Is the transition accomplished
Is the inhibition given up
Virgins are addicted to us
We enchant their intimacy
Virgins are addicted to us
Is the inhibition given up
The transition is complete
