So you and me
Standing up this wall
White flowers on the ground
We need the sound
Of what we leaved before

All the world is running now
Every moment seems the last
You would live it all the way
And tonight I need you here
I can feel the dreams I need

I'll never listen to the same sad song
It's something that you can't keep on
Turning on... again
Before I say goodbye

It's you and me
But I feel so alone
Just broken dreams in mind
You play this song
And leave me once again

Anyway I am
Everything you need
But it's hard
To take a breath and walk away
And it's so hard to say

I'll never listen to the same sad song
It's something that you can't keep on
Turning on... again
Before I say goodbye
I'll never listen to the same sad song
It's something that goes on and on
Keeping me awake
Before I say goodbye

I'll be there soon
It seems so far
If I could take you there
(And all the world is running now)

I'll be there soon
It seems so far
(Every moment seems the last)
If I could take you there
(You would live it all the way)
I'll be there soon
(But this night I need you here)
But it seems so far
(I can feel the dreams I need)
If I could take you there
