

My Last Mistake "For You"

Visit "[For You](#)" on MotoLyrics.com

Ever since I was young,
you led the way and showed me right from wrong.
You're always beside me,
you've always held my hand.
And made the ground strong enough for me to stand.

And this is my thank you,
This I love you,
This is I need you.
This is my everything,
My everything for you.

For you.

For all of the good times,
And all of the bad.
For all of the times I've let you down,
You've always been there for me.

And this is my thank you,
This is I love you,
This is I need you.
This is my everything,
my everything for you.

For you
