Let's fleece a few old friends
Let's fleece a few old friends
We can bleed them, we can rip them off
Let's fleece a few old friends
Let's fleece a few old friends
We can bleed them, we can rip them off
Let's fleece a few old friends
Let's fleece a few old friends
We can bleed them, we can rip them off
Let's fleece a few old friends
Let's fleece a few old friends
We can bleed them, we can rip them off

Honey, I've got some thinking to do
Cause this can only be me, and this can only be you
To be sleeping with you when there's extortion to pull
While there's corruption and fools all pointed at you
To be sleeping with you when there's extortion to pull
While there's corruption and fools all pointed at you
To be sleeping with you when there's extortion to pull
While there's corruption and fools all pointed at you

Honey

Oh this could be the greatest shakedown
Oh this could be the greatest shakedown
Oh this could be the greatest shakedown
Oh this could be the greatest shakedown
Oh this could be the greatest shakedown
Oh this could be the greatest shakedown
Oh this could be the greatest shakedown
Oh this could be the greatest shakedown
Oh this could be the greatest shakedown
Oh this could be the greatest shakedown
Oh this could be the greatest shakedown
