Waiting in the grave  
Buried deep in the trenches of hell  
Standing in line to die yet I'm already dead

Another morning ripe for killing  
Death's scythe carving pawns of war

Forth for vengeance, forth for hate  
I am every slaughter reincarnate  
Split second murder we're all fuel for the machine  
Behind impassive eyes dead bodies wait to be  
released

No time for mercy  
Make this day another man's funeral  
And let the napalm rain wash our sins away

Forth for vengeance, forth for hate  
I am every slaughter reincarnate  
Split second murder we're all fuel for the machine  
Behind impassive eyes dead bodies wait to be  
released

Genocide has begun  
Detonations digging mass-graves  
Paralyzed, hammered down  
As my body is blown

Into pieces
