You look pretty for a devil in a dress
You look pretty for a cocaine mistress
You look like you fell from the sky
I don't believe you didn't wanna believe you
I don't believe your smile
I don't believe your smile
I don't believe your smile
I don't believe your smile
You look poor for a man made of money
You look poor for a bear full of honey
You look like you wanna die
I don't believe you didn't wanna believe
I don't believe your smile
I don't believe your smile
I don't believe your smile
I don't believe your smile
I don't believe your smile
I don't believe your smile
I don't believe your smile
I don't believe your smile
You look pretty for a devil in a dress
You look pretty for a cocaine mistress
You look like you fell from the sky
I don't believe you didn't wanna believe you
Your smile
