Let me in
This silent hidden place
Where none can find
Can find me
I wanna stay on my own
N' softly weep me to
A nepenthe sleep
Chasin' away
The burden o' this life
(chorus)
I can't bear this wake
Drains me inside
I guess the death could save me
My eyes have got
No tears to cry
I know it's for they're empty
All i need
It's to shrink inside
A nepenthe sleep
Slide into the oblivion
O' the world i'm goin'
To leave
Feelin' the attraction
O' the death
Yes i will
To leave apart this fiddling life
(chorus) i can't bear this wake
Drains me inside
I guess the death could save me
My eyes have got
No tears to cry
I know it's for they're empty
