Album: SIRENA (2002)

Where you been lately  
You used to light up the streets with your style  
I've been here waiting  
For less than a year  
For more than a while  
How well I remember  
it's always A theme park tall tales and true  
A time built of ribbons  
A little girl dreams  
Tattered and strewn

There's been some heavy heavy weather lately baby,  
Will you tell me the news?

Cool smooth motion  
The lighthouse is on  
The keeper's not in  
We'd light up the ocean  
And never escape  
The things that we've seen  
I've got one photo  
That's keeping me fond  
Of who you might be  
It's sure some notion  
Like someone I'd know  
Much better than me
