Verse 1:

Mmmmmmmmmmm

Oh it hurts so bad.

It started out so perfect, something God could only create.

A union of both me and you on this special day  
Never once did I take for granted that you've been hurt before.

So you treated me like a lady and even more.

So I can't understand why you brought stones into my life.

Tell me why, you destroyed every part of me.

Now what once a beautiful lady that you showered with your love must live with

A heart that bleeds.

I hope you never have to come this way again. you used to be my lover and my

Friend. so please don't take offense when I say  
What I have to say.

If you died I wouldn't cry cause you never loved me any way.

Promises made and secrets told

Late nights spent in ecstasy, we made love in a bed of roses for the universe

To see. there was no holding back from each other, both of our minds were

Free. we never wasted time apart, boy it seems like eternity.

So I can't understand why you brought these stones into my life.. oh tell me

Why.

I gave you a reason to live and you used my love in vain .. so go on by

Yourself to survive this alone.. you know you can't come back home.

I hope you never come this way again. you did, you did.  
so please don't take

Offense when I say what I have to say.  
If you died I wouldn't cry cause you never .. no way.  
No way no way  
How could this be  
After all the love you said we shared you turned around  
and leave.  
Boy you know you were my heart and soul but I can't be  
pretend I gotta let  
You go.  
Together forever that's what we both said.i didn't know  
that life could be  
So unfair.

Baby you did this to me.  
You were my lover  
So please don't take offense when I say what I have to  
say.  
I hope you die, I hope you die  
Cause you never loved me anyway.

I.... you never never never never never never never  
never  
You use to be my lover and my friend. you can get  
struck by lightning, washed  
Away by the sea, burned in a fire just don't bring it back  
to me. cause  
Cause you never loved me anyway.
