[x2:]

I'm never gonna let you
Never gonna let you
Never gonna let you

[Verse 1:]

I will lie for you if I had to give my life for you
Don't be sad or blue
Cause I'm always here for you, boo
Boy, I'll do whatever faithful, boo
I'm your and ever
Storm or rainy weather
Only brings us close together
Boy, I would cry for you
Anything
I would die for you
Anything that you need
Hope you know
Boy, I would hurt for you
Anything in this world for you
Anything that you need
You should know

[Chorus:]

Never gonna let you down
Never gonna let you down
Never gonna let you down
Never see you down (no, no, no)
Never gonna let you down
Never gonna let you down
Never gonna let you down
Never see you down (no, no, no)

[Verse 2:]

Boy, you're so damn fine
I love it, you're in my mind
Never disappointed cause with you
I take my time
Baby, see I know just what you need
And what you like
And you're down because

I'll never let you down
I'll make it hot for you
Even here on the spot for you
Hope you know
My body's down for you
Anytime for you
Anything that you need
You should know

[Chorus:]

Never gonna let you down
Never gonna let you down
Never gonna let you down
Never see you down (no, no, no)
Never gonna let you down
Never gonna let you down
Never gonna let you down
Never see you down (no, no. no)

[Verse 3:]

No-oh, no-oh, no-ohhh
Never see you down
Never, never, never (noooo)
HmMMM yeahh
Don't wanna see you down
Or we can get down
Anytime day or night wherever

Just want to let you down
