[Rodney Jerkins]
Darkchild 2000
Uh huh uh huh
Uh come on
I like that uh
Mya you ready?
Put your gloves on
It's on let's go

[Mya]
We fight all day
Make up all night
Our love's up and down
It makes the mood just right
For us to do what I love to
So if I pick a fight
You know what I'm up to
Don't shake your head
Baby instead
Give into me this fight
You won't forget
I promise you when we're through
You won't hesitate to say I'm sorry boo

I just want to make up
Cause I want you so much
That's why we have to stay
Getting into it, somedays
Never endin' it
So don't get mad at me
Sometimes I get the strangest needs
That's why I turn to you
So you can handle it baby
You're the man for it

We gotta make up tonight
That's what I wanna fight with you
Break the rules
So we can get it right
And I'll show you how I do
I wanna fuss and fight

Then make it up tonight

If I'm forced to make up with you
There's nothing left to say
But my plan went cool
So that's when you apologize too
Then ask baby is there something you can do
Then I'll say yes, half undressed
Then I'm pretty sure that you can handle the rest
So how do you like the new game that I play?
When I really want you

I just want to make up
Cause I want you so much
That's why we have to stay
Getting into it, somedays
Never endin' it
So don't get mad at me
Sometimes I get the strangest needs
That's why I turn to you
So you can handle it baby
You're the man for it

We gotta make up tonight
That's what I wanna fight with you
Break the rules
So we can get it right
And I'll show you how I do
I wanna fuss and fight
Then make it up tonight

[RJ](Mya)
(Yeah, yeah, yeah)
Yeah uh Darkchild we don't stop (oh)
Mya we don't stop, uh
And if you feel that let me see you dance
And if you like that let me see you dance
And if you want that let me see you dance
And if you with that let me see you dance

We gotta make up tonight
That's what I wanna fight with you
Break the rules
So we can get it right
And I'll show you how I do
I wanna fuss and fight
Then make it up tonight

We gotta make up tonight
That's what I wanna fight with you
Break the rules

So we can get it right
And I'll show you how I do
I wanna fuss and fight
Then make it up tonight

Getting into it
(Getting into it)
Never endin' it
(We're never ending it)
So you can handle it
(I can handle it)
You're the man for it
(I'm the man for it)
Getting into it
(Getting into it)
Never endin' it
(We're never ending it)
So you can handle it
(I can handle it)
You're the man for it
(Cause I'm the man for it)
Getting into it
(M-Y-A)
Never ending it
(Darkchild)
So you can handle it
(Uh)
You're the man for it (Yeah)
Getting into it
(Uh-huh)
Never ending it
So you can handle it
(Yeah)
You're the man for it
Getting into it
Never ending it
So you can handle it
You're the man for it...
