So alive
Oh oh oh oh, oh yeah

[Verse:]

Just call my name and I'm already there
You don't need to write it in the sky my ba-by
I can make the stars light up for you I swear
My love's in your forever

So as we dance, all night
What the love going up to the milky way
You'll let me know
Hold tight
I promise, I promise, I'll never leave your side

[Chorus:]

When you're holding me,
Kissing me, loving me " I can't deny that with you I
feel so alive.

The sweetest melody, in my ear, chemistry
Is blowing my mind, with you I feel so alive.

Alive
With you I feel so (alive, alive)
With you I feel so alive

You can take a look inside my heart
I'm sure that you will find a picture of us

From a single spot
We'll always shine in the dark

[Chorus]

[Verse:]

If your hand fits mine perfectly like a glove,
I just hope that nothing comes between and breaks us
up

What we share is incredible, but magic comes
So don't stop, doing me right.

With you I feel so alive

[Chorus]
