All the girls hit up ya boy
All the girls hit up ya boy
All the girls hit up ya boy
All the girls hit up ya boy
All the girls hit up ya boy
All the girls hit up ya boy
All the girls hit up ya boy
All the girls hit up ya boy

Take me to the car tonight
In the back behind black, laid back, in your backseat
Take me to the car tonight
In the back behind black, laid back, in your backseat
Your backseat

It took me all day to, reply to your pager
Send back the right answer, and try to be clever
Didn't wanna come off as being too simple
But honestly there's only a few ways to put it

Take me to the car tonight
In the back behind black, laid back, in your backseat
Take me to the car tonight
In the back behind black, laid back, in your backseat
Your backseat

In a bed would be perfect, but your car would be the
shhhh (yeaa)
You know I love your leather, don't bring no key to a
hotel suite
Just pull up and beep your horn, cause baby that's how I
like to get it on
There's so much room in here, it's getting hot in here
Seduce me (oh), let's get undressed until we lose our
clothes (oh)

Seduce me, you know how I like it

Take me to the car tonight
In the back behind black, laid back, in your backseat
Take me to the car tonight
In the back behind black, laid back, in your backseat

Your backseat

All the girls hit up ya boy
All the girls hit up ya boy
All the girls hit up ya boy
All the girls hit up ya boy
All the girls hit up ya boy
All the girls hit up ya boy
All the girls hit up ya boy
All the girls hit up ya boy (oh)

Take me to the car tonight
In the back behind black, laid back, in your backseat
Take me to the car tonight (oh, baby)
In the back behind black, laid back, (I like it, i like it) in
your backseat
Your backseat

Take me to the car tonight
In the back behind black, laid back, in your backseat
Take me to the car tonight
In the back behind black, laid back, in your backseat
Your backseat
