Yeah, yeah

Time don't wait for no one  
So my heart and my time I refuse to waste  
You thought you knew the score but  
There's just so much more when you're caught in the  
race

What is love, without a flame  
(What is love, without a flame)  
What's a rose, without a name  
(What's a rose, without a name)  
What is pleasure without pain  
It ain't nothing more than an empty space

Give me everything or nothing  
Give me everything or nothing at all  
Everything or nothing  
Give me everything or nothing at all

He thought he knew who love was  
'Til he fell in the arms of another extreme  
But who's to say things can't be changed  
It's your world and tomorrow's not guaranteed

Can't drive a car without the keys  
(Can't drive a car without the keys)  
Give me the bowl 'cause a bite's just the tease  
What good's the bottom without the top  
(Without the top)  
And until I get it all, no, I'm not gonna stop, so

Give me everything or nothing  
(I want it all, I want it all)  
Give me everything or nothing at all  
Everything or nothing  
Give me everything or nothing at all

Everything is all that I want  
Everything is all that I want  
Everything is all that I want, I take what I want  
Everything is all that I want

Everything, I get what I want

Everything or nothing  
(I take what I want)  
Everything or nothing  
(I get what I want)  
Everything or nothing  
(I take what I want)  
Everything or nothing  
(I get what I want)

What is love, without a flame  
(What is love, without a flame)  
What's a rose, without a name  
(What's a rose, without a name)  
What good's the bottom without the top  
And until I get it all, no, I'm not gonna stop, so

Give me everything or nothing  
Give me everything or nothing at all  
Everything or nothing  
Give me everything or nothing at all

Give me everything  
Everything or nothing at all  
Give me everything  
Give me everything or nothing at all

Everything or nothing  
(I take what I want)  
Everything or nothing  
(I get what I want)  
Everything or nothing  
(I take what I want)  
Everything or nothing  
(I get what I want)

Give me everything or nothing at all
