Imagine a world with no hate, let's go

If you wanna change the world we're living in, you can
do it, if you just believe that you can
There's a miracle in everything you see, you gotta open
your eyes and get ready
But if your heart is full of sadness, pour it out and fill
with gladness
There's nothing to loose and nothing to fear, when the
message is believe

Love is the answer to all our problems,
With simple word we gonna solve that
Love is the answer to all our questions
It can change your life
Love is the answer to all our problems,
Gonna save this world with a something
Love is the answer to all our questions
Let it change your life,

Love, peace, freedom, liberation

Look at the sunrise and greet the new day

We got so many reasons to celebrate
Nothing is impossible with a little bit of faith
So open your mind and I'll lead the way
If you're searching for direction, if you're ... for
affection
Don't you worry it's gonna be just fine, soon you'll
realize

Love is the answer to all our problems,
With simple word we gonna solve that
Love is the answer to all our questions
It can change your life
Love is the answer to all our problems,
Gonna save this world with a something
Love is the answer to all our questions
Let it change your life,

Do you wanna change? Love is the answer

Imagine a world with no hate, just love
Love is the answer, it would be so great
If we could joy each other, learn to live in peace and
harmony, let go.
