Go baby, go baby , go, go baby  
Go baby, I'ma let my hair down  
Go baby, I'ma let my hair down (Go)  
Go baby, I'ma let my hair down,  
I'ma let my hair down  
I'ma let my hair down

I don't need to be pretty  
I just need for you to put it down  
out the door with sady, just work me out, like right  
now â€¡  
I done worked hard, i need for you to help me put this  
tension out  
Go ahead and pull that, smack that, bite that, grab that  
Like you never, ever, never had that  
I turn you on so you can break me off  
I turn you on so you can break me off, eh

We ain't gotta take it slow, I want you to rock that boat  
all night, night, night  
Enough talking let's get started, yeah  
You see I ain't too proud to beg, no, no  
Get ready, get on your mark, get set, go, go  
You can mess, mess up my hair, you can mess, mess  
up my hair  
You can mess, mess up my hair, you can mess, mess  
up hair

Go baby, I'ma let my hair down  
Go baby, I'ma let my hair down (Go)  
Go baby, I'ma let my hair down,  
I'ma let my hair down  
I'ma let my hair down

I hope ya wanna get messy, follow me don't stay inside  
your line  
Give it to me get sweaty, set it up, bounce up, don't  
take your time  
I done worked hard, I need for you to help me get this  
tension out  
Go ahead and pull that, smack that, bite that, grab that  
Like you never, ever, never had that

I turn you on so you can break me off  
I turn you on so you can break me off, eh

We ain't gotta take it slow, I want you to rock that boat  
all night, night, night  
Enough talking let's get started, yeah  
You see I ain't too proud to beg, no, no  
Get ready, get on your mark, get set, go, go  
You can mess, mess up my hair, you can mess, mess  
up my hair  
You can mess, mess up my hair, you can mess, mess  
up hair

Take control, ya better not slack.  
I wanna feel it all, so dont hold back  
Go baby, Oh baby  
When its gettin hot, to where we're on fire  
just sweat it out, dont worry bout my hair  
Make it hot, like 100 degrees  
Gimme what, gimme what my body needs

You see I ain't too proud to beg, no, no  
Get ready, on your mark, get set, go, go  
You can mess, mess up my hair, you can mess, mess  
up my hair  
You can mess, mess up my hair, you can mess, mess  
up hair

Go baby, go baby , go, go baby  
Go baby, I'ma let my hair down  
Go baby, I'ma let my hair down (Go)  
Go baby, I'ma let my hair down,  
I'ma let my hair down  
I'ma let my hair down

Just got done, and pressde it up  
But you got my permission to mess it up  
Live it up, ef it up, baby i'ma need  
for you to mess it up
