This is my shit!  
This is my shit!  
This is my shit!  
This is my shit!

You left the house decked out  
in sexy pumps some mini skirt  
So don't you bring that booshi bull round me!  
Your cooch is hanging out  
So shut up bitch, and let it show  
Or next time put some clothes on around me!

We're thirty minutes late cause your mind up you can't  
make  
And your make up just aint it, it just don't match!  
No, we can't turn around to get your phone  
You left behind, you're messing with my money  
Hoe, I don't appreciate!

Chorus:  
Somebody come get this  
Somebody come get this  
Somebody come get this  
Somebody come get this bitch!  
Somebody come get this  
Somebody come get this  
Somebody come get this  
Somebody come get this bitch!

OK, right now, right now is my pause moment  
Bounce, reflect and refrain!  
We're all at a restaurant, sitting at a table  
When my girl says "excuse me, I'll be right back!"  
OK, same chick form earlier, starts yapping at the  
mouth  
When she gets up starts talkin smack behind her back.  
OK! I'm thinking to myself how could somebody talk so  
bad  
About someone they consider a friend?  
And now I'm thinking I should take this ketchup bottle  
wack her  
one good time, but that would be the end.

Chorus:  
Somebody come get this  
Somebody come get this  
Somebody come get this  
Somebody come get this bitch!  
Somebody come get this  
Somebody come get this  
Somebody come get this  
Somebody come get this bitch!

Before I go oh boy  
Must count to ten  
Before I hurt someone  
Please come get this bitch!  
OK, before we do anything stupid  
I'm gonna need you to think happy thoughts

Chorus:  
Somebody come get this  
Somebody come get this  
Somebody come get this  
Somebody come get this bitch!  
Somebody come get this  
Somebody come get this  
Somebody come get this  
Somebody come get this bitch!
