[Rodney Jerkins]

Darkchild 2000

Uh huh uh huh

Uh come on

I like that uh

Mya you ready?

Put your gloves on

It's on let's go

[Mya]

We fight all day

Make up all night

Our love's up and down

It makes the mood just right

For us to do what I love to

So if I pick a fight

You know what I'm up to

Don't shake your head

Baby instead

Give into me this fight

You won't forget

I promise you when we're through

You won't hesitate to say I'm sorry boo

I just want to make up

Cause I want you so much

That's why we have to stay

Getting into it, somedays

Never endin' it

So don't get mad at me

Sometimes I get the strangest needs

That's why I turn to you

So you can handle it baby

You're the man for it

We gotta make up tonight

That's what I wanna fight with you

Break the rules

So we can get it right

And I'll show you how I do

I wanna fuss and fight

Then make it up tonight

If I'm forced to make up with you
There's nothing left to say
But my plan went cool
So that's when you apologize too
Then ask baby is there something you can do
Then I'll say yes, half undressed
Then I'm pretty sure that you can handle the rest
So how do you like the new game that I play?
When I really want you

I just want to make up
Cause I want you so much
That's why we have to stay
Getting into it, somedays
Never endin' it
So don't get mad at me
Sometimes I get the strangest needs
That's why I turn to you
So you can handle it baby
You're the man for it

We gotta make up tonight
That's what I wanna fight with you
Break the rules
So we can get it right
And I'll show you how I do
I wanna fuss and fight
Then make it up tonight

[RJ](Mya)
(Yeah, yeah, yeah)
Yeah uh Darkchild we don't stop (oh)
Mya we don't stop, uh
And if you feel that let me see you dance
And if you like that let me see you dance
And if you want that let me see you dance
And if you with that let me see you dance

We gotta make up tonight
That's what I wanna fight with you
Break the rules
So we can get it right
And I'll show you how I do
I wanna fuss and fight
Then make it up tonight

We gotta make up tonight
That's what I wanna fight with you
Break the rules
So we can get it right

And I'll show you how I do
I wanna fuss and fight
Then make it up tonight

Getting into it
(Getting into it)
Never endin' it
(We're never ending it)
So you can handle it
(I can handle it)
You're the man for it
(I'm the man for it)
Getting into it
(Getting into it)
Never endin' it
(We're never ending it)
So you can handle it
(I can handle it)
You're the man for it
(Cause I'm the man for it)
Getting into it
(M-Y-A)
Never ending it
(Darkchild)
So you can handle it
(Uh)
You're the man for it (Yeah)
Getting into it
(Uh-huh)
Never ending it
So you can handle it
(Yeah)
You're the man for it
Getting into it
Never ending it
So you can handle it
You're the man for it...
