Lord here i stand before You on my knees  
So Jesus help me please  
I want to be just like You  
I will, i will cause it's Your will  
I can, i can do anything  
Because of what You've done for me

So i'll praise You till the mountains reach the skies  
Till the rivers all run dry  
Because of what You've done for me  
And i'll praise You with my lips and my guitar  
Cause You are my Morning Star, oh Jesus

So now i bow before You in my heart  
So Jesus make me smart  
Enough to just be humble  
I will, i will be holy too  
And i can, i can because of You  
Because of what You've done for me
