A negative imagery is all we have
To think of and feel, to decide
Desperation on an endless road
Roll the stone, relive again

And again, and again...

One with yourself, so hard to be
Layers of hypocrisy
Adapting, creating, mutating, unseeing
Fitting into the assembly line
Mindless thought for mindless thought
Never stopping, a battle never fought

Streamlined, never a thought

Searching for the kick
Of nonexistence
Of a direct link
Between yourself and your self
Your self and yourself...

Meanings once known
Naivety was the cure
Once you were unseeing
Once you were pure?
Actions to fit consequences
Reasons manufactured
Cover, define your existence
With layers of rationales

Searching for the kick
Of nonexistence
Of a direct link
Between yourself and your self
Your self and yourself...

The external hunt for consciousness
Slip from the fount of reason, slip...
Drunk with the pleasures of life
You miss the importance
Passivity to the actual priorities

That you know should define you

A solution probably not extant
Blindly stumbling, a zombie ritual
On and end being in sight
Decide to ignore, fight despise
Despise, decide, fly...
