Insane, my middle name, my mind illegally slain  
Insanity taking me down, human hunt without a sound  
Silence, class shut up, I don't mean to interrupt  
But you kids will never learn  
How to make those fishers yearn

[Chorus]

Free at last to walk again  
So let the fishing hunt begin  
Holocaust, dormant sleep  
None left to weep

Deadly game, reinsane, not one soul will remain  
Human stew of nuclear waste not one thing can curve  
my taste  
Six years, out at last Good behavior? I laugh  
Search begins, thirst for blood, dehumanize forbidden  
world

[Repeat chorus twice]
