Brought up on the needle, hungry veins to feed
Addict head to toe, sell your soul for what you need
You wanted drugs so badly you'd suck for cash
Die, as fate would dictate
This evening's work will be your last
Your time has passed

[Chorus:]

Killer rampant lives to take
Leaving bodies in his wake
Frozen bones the only clue
To tell us what happened to you

[Bridge:]

Put away your bible you haven't got a prayer
He's somewhere out there watching you
You won't know when or where
He'll pick you up like any John

Out on roads remote
You'll take your place among the dead
His hands have closed around your throat

Brought up on the needle, hungry veins to feed
Addict head to toe, sell your hole for what you need

Killer rampant lives to take
Join the bodies in his wake
Frozen bones the only clue
To tell us what happened to you
