Kindergarten playground, kids having fun  
Going to the pawn shop to buy me a big ass gun!

Armed and poised at the schoolyard fence  
To complete the recipe I'll just add violence!

Your child is in my sights  
As I pull back the hammer  
My aim is just right as I squeeze the trigger  
I'm a cold-blooded psychopathic maniac  
My favorite method of attack  
Is shooting children in the back!

I'm a citizen of the ultimate nation  
Where they'll sell me a gun  
And provide an invitation  
To come and release my pent-up frustrations  
On unsuspecting crowds at convenient locations  
For a person like myself there is no defense  
Just show me a gun and I'll do the rest  
Don't even ask why cause it makes perfect sense  
To complete the recipe I'll just add the violence!
