I am your savior and so you'll obey my every
manipulation

Search through the pages in total dismay

Hoping to find your salvation

Pray with me and God will set you free

There's nowhere in the Bible it says you have to be poor

See me change before your eyes

Into a fountain full of lies

I seem to have you mesmerized, take my advice

Now I have borrowed to never return

My Army of Faithful, will you ever learn?

There'll be no second coming, it seems that I have lied

Thanks for the cash, I'll see you in hell

Then I'll just let you all die

Die!

In my hand I hold a dollar bill

For this is the seed of life

You cannot live and prosper without the seed

And with the seed I will sprout into a tree

And drop leaves of forgiveness upon your soul

I'll be handing the bread basket around

So give me your bread and I'll pray for your sins

And I'll die for your soul
