We rock this church  
Rock it inside out  
Against the world they teach us  
On judgement day we shout  
The preacher gives us sermon  
The preacher gives us prayer  
The preacher gives us heaven  
Can't he see that we don't care

Rock this church

They cry for better manners  
They tell us be polite  
They tell us get our hair cut  
Don't they know they are asking for a fight  
They tell us it's immoral  
They tell us it's a sin  
We get all our pleasures  
From the trouble that we get in

Rock this church
