Superstition, seductress of death  
Murderous bitch from the grave  
Convicted, a disciple of Satan  
Raped & then burned at the stake  
Virgin, bitch of the faith  
Tormented the earth once before  
Resurrect the slut from the grave  
My beloved satanic whore

[Chorus:]  
She's back from the grave  
To fish & enslave  
You cannot be saved  
Succubus  
She'll drain you of breath  
Suck you to death  
Bury what's left  
Succubus

{Bridge:}  
Castration, damnation, the price you will pay  
Religious salvation provides no other way  
Fatal attraction, you fall under her spell  
Begravement, enslavement  
You're on your way to hell

Bitch of death and disease, whore to hell's master of slaves  
Slut, going down on her knees, sucking you into the grave  
Spreading her legs in air, Succubus weaving her spell  
Consumed by her cavern of death  
She opens her gateway to hell

[Repeat chorus twice]
