He looks like a lawyer, his case is of death
Objection denied as he takes your last breath
Convicted a fool, death is your cell
Verdict of guilty, sentenced to hell

[Chorus:]

Sadistic bastard of deaths comprised
Vicious butcher the face belies
Torture and savagery that logic defies
Everybody dies
Ted Bundy

Killer is captured, justice prevails
Escape ever present, security fails
Bloodrush of freedom, he must kill again
Psychotic overthrow, death without end

[Repeat chorus]

[Bridge:]

I feel no remorse for the deeds I've done
I'm out for enjoyment & killing is fun
With no fear of dying, I'll go to the chair
I'll return from the grave to kill once again

[Repeat]
