You called me on the phone  
And made like everything was alright  
You said you were alone  
Just hanging around the house last night

It's unbelievable the way you were treating me  
I'm not so cold  
Don't believe I couldn't see  
Now I'm so onto you  
Am I getting through  
Guess what I'm gonna do

I'm hanging up on you on all of your lies  
I got you figure it out till you can take off your disguise  
I'm hanging up on you on everything you said  
So I'm hanging up...goodbye

My girls took me out to movies  
And boy I didn't have a clue

I guess that you just want you didn't do it  
Cause I saw her sitting there with you

It's unbelievable the way you were treating me  
I'm not so cold  
Don't believe I couldn't see  
Now I'm so onto you  
Am I getting through  
Guess what I'm gonna do

I'm hanging up on you on all of your lies  
I got to figure out till you can take off your disguise  
I'm hanging up on you on everything you said  
So I'm hanging up...goodbye

Baby I miss you  
But I promise I won't cry  
My heart wants to stay with you  
But I'm telling you goodbye
