Man of all my dreams please detain my tears and stop  
all my emotions  
Slot and gluttony your two favourite sins to kill all my  
sensations  
Man of all my fears, let me drop my tears and regain  
all my devotion

Hate and agony that's all I can feel but these sins are  
immortal  
All those dirty lies, you told me with no shame  
Anger, lust and pride, it's how you played the game  
[x2]

I feel strong emotion, deep as an ocean  
Just for you  
I feel strong emotion, deep as an ocean  
Just for you  
I feel sensation, love and passion  
Made me blind  
All the time we spent together  
I knew you were the perfect sinner  
I believe there is no need to cry  
Don't hide your seven sins [x2]

All the time we spent together  
I knew you were the perfect sinner  
I believe there is no need to cry  
I believe there is no need to hide  
So please don't go... Please don't go... Please don't  
gooooh
