"Brave New World"

Visit "[Brave New World](#)" on MotoLyrics.com

Where is the promised land?
Where is the brave new world?

The earth is shaking
Down below our feet
We move in wonder
And we generate the beat

Our blood is boiling
Wonderful in heat
We glow like embers
Dancing in the dark

Where is the promised land?
Where is the brave new world?
Where do all dreams go when they die?
Oh, we can move the streets today

Where is the promised land?
Where is the brave new world?
Where do all dreams go when they die?
Oh, we can move the streets today

Where is the promised land?
Where is the brave new world?
Where is the brave new world?

Where is the promised land?
Where is the brave new world?

The lights are fading out
Before our eyes
We lose each other
And we celebrate the peace

Our lives are changing
Faster than we think
We flow like dancers
Crashing in the dark

Another morning broken
Shattered sheets of lead

Clouds the size of oceans
Inside and above our heads

Where is the promised land?
Where is the brave new world?
Where do all dreams go when they die?
Oh, we can move the streets today

Where is the promised land?
Where is the brave new world?
Where is the brave new world

Where is the promised land?
Where is the brave new world?
Where do all dreams go when they die?
Oh, we can move the streets today

Where is the promised land?
Where is the brave new world?
Where do all dreams go when they die?
Oh, we can move the streets today

Where is the promised land?
Where is the brave new world?
Where is the brave new world?

Where is the promised land?
Where is the brave new world?
Where do all dreams go when they die?
Oh, we can move the streets today

Where is the promised land?
Where is the brave new world?

Where
