Breath without your lungs
It stays deep underneath the skin
Could you tell me how it ends and begins?

Could I kiss those scarlet lips of yours
and taste the winter
When I shed my December skin

Where do we go from here
I turn around and wait for more
Where do we go from here
I'm taking you with me

Bring the light
Burn the sky
Torch the lives
Bring it all into part

For the final resolution we will leave our past to burn
forever
To live forever

Taste without your tongue
Lick your wounds and kill the creeps
Could you tell me how it ends and begins?

Tonight I like you even more
Take my picture
When I shed my december skin

Where do we go from here
I turn around and wait for more
Where do we go from here
I'm taking you with me

Don't pull me up
Pull me up

Fire in my footsteps
Peace in my mind
Broken rhythms

Broken bodies
Broken minds
Broken hearts

We're gonna burn this house to the ground
I want to hold on to this feeling
I want to hold my breath just for a little while
Just for a little while

Bring the light
Burn the sky
Torch the lives
Bring it all into part

Where do we go from here
I turn around and wait for more
Where do we go from here
I'm taking you with me

Don't pull me up
Pull me up
