[Trae]

I'm living it day by day, so I can try to catch focus  
I gotta thank God that I'm still living, I'm letting know  
that he's noticed  
I know, that I need to change  
All I could say the streets is all I live, since I was  
neglected  
All of my life I feel it's nothing but pain that I get, stay  
strapped with a vest  
Until I rest gotta do my best, while living this life I don't  
wanna be shife  
All of my life, feel like I was stabbed in the back with a  
knife  
So all of my so called friends, better check yourself  
Don't approach me, 'fore I drop turn drop back on a  
nigga like me  
That's why I gotta keep my faith in God, and I don't  
wanna go  
But if I really gotta go, then I'ma die living at my will  
Trying to maintain the pain that I feel, sometimes I feel  
that I gotta get killed  
If it's that way then I won't feel the stress, that's kept up  
in my brain  
Nobody to blame for the thangs I do, not ready to  
choose if I should change  
I suggest you better keep your distance, better mind  
your bidness  
I don't wanna go take your life, and it don't take much  
That'll make me click, one day I'm hoping I see the light  
This life of mine finna get worse, I feel I'm cursed for  
life with this stress  
I'm so sick of me living in pain, in vein  
I'm thinking, that I'ma be ready to rest in peace

[Hook: Peaches - 2x]

I'm just trying, to live my life  
Why you hoes, be acting shife  
You always, wanna hate my grind  
I'm only trying, make shit right

[Dougie D]

Trying to regain my focus, my vision blurry from pain  
Trying to calm all my nerves, insents burning from  
Mary Jane

Trying to live my life, more paper fuck lime light  
Daily says she down with me, but something don't feel  
right

Dougie steady be smoking, from the pain in my mind  
If you say you down with me, tell me why you be lying  
Situation be sticky, but when it's hot it'll bubble  
Tell me you love me, but girl I would never you see me  
struggle

Could it be, I'm part of this game  
But nobody understand, till somebody lay in this game  
And I don't wanna be the one, that have to tell you  
mayn

But I'm still gon ball, across the turning lane  
Gotta keep my head up, even though I'm fed up  
Still stacking my change, and sitting up on buck  
Y'all boys don't learn, not to fuck with us  
We on the paper, and in God we trust  
Mucho caliente, like the ese's  
Keeping shit hot, the way we getting paid  
Better recognize we own the world, and it's just too late  
to pray

I'm trying to live my life, like day to day  
And I know he hear, a G when I pray  
So after we'll see, I feel the change in me  
And I know something good, for I told the beat

[Hook - 2x]

[Z-Ro]

In an attempt to make it right, running up red here my  
daily flight  
Taking Penitentiary chances right, to make sho my  
woman and baby tight  
I make fake to the left, but I make a right  
Green or yellow don't worry, I'ma make the light  
Gotta get rid of a few cakes tonight, anything go wrong  
I'ma take a life  
Because I'm thinking about, my lil' brother mayn  
I really done lost my mother mayn, there cause my  
cousin no other mayn  
When you fuck with that, your life up in flames  
I'm tired of the bullshit reaching me, I can't afford a  
class who teaching me  
And make a nigga wanna cuss all the time, 90 percent  
of songs  
They be bleeping me I gotta watch my tongue, and just

like I'm on fire  
Pen start pimping, it'll bug your eye  
Tryin to go from steady to customized, hoodrats to  
yellas with lovely thighs  
Where they be, when a nigga wanna drop the top  
Everybody was spend money, wanna cock the glock  
Get away from laws, had to drop my rocks  
Jumping over the fence, the convict don't stop  
Gotta buy diapers gotta buy clothes, gotta get paid  
before I stole clothes  
Picture for picture that's fucked up  
Especially when a nigga, done done some shows  
Rock the crowd, for about fo' bills  
Show me the money, cause I show skills  
I'ma sip the drank, and I'ma blow the skill  
And I'ma meditate, until a nigga get a platinum deal

[Hook - 2x]
