"The Beauty And The Grace"

Tenthousand times
Tenthousand ways
To catch the beauty and the grace

A thousand time
A thousand ways
A million times whispering your name
Your name, your name, your name

For only once, life comes again
For only once life comes through again
Again, again, again, again, again... again, again

Tenthousand time, I crave for you
Tenthousand time, you make me look
For only once, life comes again
For only once life comes through again
Again, again, again

A thousand time I say, a thousand time I pray
For one last time to say goodbye
A thousand time I say, a thousand time I pray
For one last time to say goodbye
