You are fucking disease  
Spill your Blood to the ground  
And pay the price of your guilt  
Grasement is your only solution  
And Death will be your final conclusion

Bleeding wrists  
Bleeding wrists  
Bleeding wrists  
Bleeding wrists

Cold, murderous steel upon your flesh  
Slice the infected veins  
Free those streams, groping endless and foolish  
Cause you are already trapped

You are fucking disease  
Spill your blood to the ground  
You are welcome to fucking die  
You scornful scum of shame!!!

Die!!!  
Die!!!
