Attack fire against fire, when your enemies attack you  
Throw the first stone, before something hit you  
You well know that the best defence is the attack  
And shan't rest until hear the enemy's last breath  
Peace just will come, when you triumph over the last  
one  
Eye by eye  
Tooth by tooth  
You shall retribute evil by evil  
Ashes to ashes  
Dust to dust  
The one who has made more victims be named the  
new God  
Sometimes, I've given love and haven't received  
anything back  
You are confounding human feelings with  
merchandises  
I've seen, All my life, the people doing thus  
Why don't you follow your own instinct of discernment ?  
But I've followed it !!  
The focus of tyranny and hate  
More despotic than the megalomaniac God  
But he isn't a God and he is lacking his strenght  
Now he feels the shock of the negative discharge in his  
mind  
Now I am here submerged in this mud, I am the worst  
!!  
And old and useless trash full of wrinkles  
Face our destiny  
Watch my sad example  
The world of fatality that we are creating for our fellow  
beings  
Revive yourself as me  
Our greatest fault is the fear to admit our wrong  
Hindsight won't help me to recover the time I've lost  
The doors are closing, wake up !  
I must open your eyes to the truth  
The chances are against us, stand up to  
The man is born as a pure and wise animal  
But the society blinds him and taints him  
If he become contrary to it, he'll suffer, like me, the

consequences  
Threatened, imprisoned, tortured, humiliated,  
doomed, killed and  
Decaptated  
No God, no Devil, no one can save us from the human  
justice  
Eye by eye  
Tooth by tooth  
Destroy the false conceptions which they've trained you  
Ashes to ashes  
Dust to dust  
Happily, for our luck, the sun rises for all  
It's never too late to go off the course of our life
