Running from Babylon
Running from Babylon
My whole life I've been running from Babylon

Seeking a higher end
Looking for higher ground
Oh lord hope I live a righteous life

Too much destruction going on in this world
Materialism taking over our minds
Why can't we realize we're given all we can need
But still washes through is our human greed

Running from Babylon
Running from Babylon
My whole life I've been running from Babylon

Seeking a higher end
Looking for higher ground
Oh lord hope I live a righteous life

Look at the society we've created
Tell me why do we still live so segregated
Jah people wake up and abandon your hatred
Enrich your souls through life integrated

Running from Babylon
Running from Babylon
My whole life I've been running from Babylon

Seeking a higher end
Looking for higher ground
Oh lord hope I live a righteous life
Oh lord hope I live a righteous life
