Puissance in the abstract  
A band can't reach obstacles  
Mundane, such invisible pillars  
The human horror obsolete

Abstract life and all therein  
Implode the matter senseable  
The will without meaning  
Ageless the void of old

The ultimate throne of none-existence  
The rabid dog of pandemonium  
The king of martyrs and man  
The condition we name nothingness

Absorbing the stars  
The leper planets fall  
Before us, after us  
Aeternus Â- in aeternum
