### "Burn!"

I can see your face, your voice  
The way you used to act  
I can see your clothes, good times  
The trouble that we had  
I buy a doll and dress her up  
The way you used to dress  
I make her walk  
I make her talk  
But her stories are not yours

I light a fire  
Got to burn her  
The way you  
Burnt your lover  
She will suffer

Everyone should burn  
I take her down to the river  
She doesn't hear me when I talk  
I start to cry like we both cried  
When promising a lot  
I take her down to the river

Take her down to the grave  
Of friendship and I pray  
Forgive me, mother earth!
