You said you needed love
To warm you in the night
So you gave yourself to strangers
Who left you crying at first light

You think the world you live in
Doesn't notice you
But don't you worry, baby
I'll be there to comfort you

Take it easy, easy
Easy does it, baby
Nice and slow
I'll take you anywhere the four winds blow

Weep no more, my lady
Don't you cry
I can't paint your portrait
With those tears in your eye

But, I can give you love
Every night and day
We will walk together
Sun and moon will light our way

Take it easy, easy
Easy does it, baby
Nice and slow
I'll take you anywhere the four winds blow

Tell you something
You'll understand
Grab a hold now, baby
And I'll lead you to the promised land

Make you feel so good, make you feel alright
Chase away the shadows
And keep you warm at night
Ooh, I'll keep you warm

Take it easy, easy
Easy does it, baby

Nice and slow
I'll take you anywhere the four winds blow

Gonna keep you smiling
And satisfied
Nothing but blue skies
On a magic carpet ride

Take it easy, easy
Easy does it, baby
Nice and slow
I'll take you anywhere the four winds blow

Anywhere the four winds blow
I'll take you there
Here we go, baby
Hold on

No more worry, no more pain
The sun is always shining
And it never ever rains
And it never ever rains
And it never ever rains
