Walking with zombies
Cheaper by the dozen
Fugitives from a chain gang
Better leave the bishop's wife
Lady in cement takes our hand
Before worlds collide

Fatal vision ? Lost horizon
Pick up the truth or you will lose
Pick up the gun or run

Pretend you're dead
Or turn your head
Stay tuned when worlds collide
The last of the innocent
Shakes the devil's hand
The only goat in paradise
Takes the promised land

Fatal vision ? Lost horizon
Pick up the truth or you will lose
Pick up the gun or run

Your billion-dollar-brain
Ain't worth a dime
When fugitives dig for the pain
Better leave the bishop's wife
Lady in cement
You stand alone
When worlds collide
