Women scream for beauty  
And cover ugly faces  
Women dressed in glamour  
Cry for pleasant smells

For the sake of looking good - millions of creatures die  
The century of plastic life - humanity's sold out!

Welcome to the madhouse  
Where science is dressed to kill  
In the name of progress  
Victims stand in line

Sadistic Terror

They just breed for killing  
They simulate disease  
Waiting for reactions  
Next experiment, please

Sadistic Terror

Nightmares are coming true  
Who has got right, the license to kill  
A shiver is covering you, dreadful thrill

Sadistic Terror

Broken bones and bursted heads  
(Baby) all these crimes are committed for you and me  
For a pleasant, healthy life  
Don't ignore the crying of the agonized pack  
'Cause you might be the next in line

Sadistic Terror
