Some years ago nobody knew  
What future would bring  
Somebody heard from somewhere  
'Bout evil things

The new plague of modern times  
No difference who is who  
It's ally calles "Creeping Death"  
Staring at you

Pain and torture - Hunting and screaming for guilt  
Pain and torture - Dangerzone  
Pain and torture - Nowhere to hide in the dark  
Pain and torture - Nightmare

Loving for money, love with your honey  
Bisexuality  
Things of emotion, turned to destruction  
That's reality

Pain and torture - Hunting and screaming for guilt  
Pain and torture - Dangerzone  
Pain and torture - Nowhere to hide in the dark  
Pain and torture - Nightmare

[Solo]

A social diseas, a private desaster  
Shocked society  
Love's not forbidden, passports are written  
Show ypur identity

Pain and torture - Hunting and screaming for guilt  
Pain and torture - Dangerzone  
Pain and torture - Nowhere to hide in the dark  
Pain and torture - Nightmare
