Uh oh, whutcha want whutcha gon do nigga  
It's the man right Chea  
I know yall nigga ain't fuckin wit me, you lookin for me  
If you gonna be down with me  
You gotta be down for year round  
You see what I'm doin but don't like it even though  
everybody and their moms  
Is bout it bout it  
Up in concerts cryin to the croud you used to be down  
but now you doubt it  
You fuckin playa hatin cowards!  
We rule over here  
We buildin the No Limit mountain  
2 million records and countin  
So how the fuck is you soundin  
Nothin but lessons  
2 multimillionaires rhymin  
Soundscan be astounded  
We sellin, ya'll drownin  
Black owned and climbin  
CDs across the counter  
Told yall I was gonna do it  
But you didn't wanna see  
Wasn't worried about a nigga  
Till I was leavin  
Come here, let me show you the difference between a  
man and a ho  
It's the man right chea, oh you lookin for me  
Here I Go!  
Whutchu want do nigga  
It's the man right chea  
Chastising proovalizing stop em from dissin  
If I'm in it I own it  
Put the keys in ignition  
I hope your seatbelts get fastened  
I'm known for massive harassing  
Havin to snatch your ass off the mic  
Grab ya and slap ya  
Psh come here psh come here  
I know you ain't gonna do it no more  
You sayin my name you must be lookin for me

Here I Go!  
Whutchu whutchu want do  
Whutchu gonna do  
We can do it whenever however you want to  
Entrepreneur soldier guns galore  
Watch em burn bitch burn like a flame thrower  
Rock it all sharp as a bull's horn  
Gaul strong as a python  
Whores they get they fight on  
Soon as I cut my mic on  
Niggas getting humped or stumped  
Fumbling mcs I crumble  
Come through like the reaper  
So daily you don't wanna rumble  
That's right don't panic  
Mystikal the mechanic  
Sank you like a torpedo gigantic  
As the titanic  
Rhymes I'm hummin keep hummin  
I'ma keep comin  
Grabbin ya woman  
But the drummer still drummin  
Hard hitter bullshitter head splitter when brittle  
Assassinate a rookie killa  
Like Adolph Hitler  
A mandingo WARRIOR  
Guns Galore  
Opponents get crushed  
I'm too cruel to be moved  
Too fuckin much to be touched  
Got em danglin and janglin  
To that shit when they hear this  
Fight me like a fight bitch I'm tragedy like a terrorist  
You think you don't like it but I have yet to begin  
You'd rather be my enemy cause I'ma deadly friend  
So stay the fuck from around me do I make myself  
clear  
Unless you lookin for the man  
Cause the man right chea
