Oom posmon oom - en oe uru ni

- neuech omun chom

- haach nomeech om

- hee noeum vrch hee

Dripping blue wash off the suffer

Lovely are shields of basess love

Finger roars by flares up of thought word

Distant luck from desire of floating pains

Oom posmon oom

Oom posmon oom

Flower of pleasure of humming bodies of freedom

Shores of infammable landscapepicture of pointworld

Key of angel wings of lightly blue

Secret pregnancy by cosmic breath

Touching of eternal dripping silence
