Kiss me at midnight  
(5...)  
hey yeah...  
(4...)  
oh...  
(3, 2, 1!)  
Kiss me at midnight  
Dance until the morning light  
Party into the New Year  
All of my friends are here  
And when the timing's right  
Kiss me at midnight

Kiss...

I've been waiting for the special night  
To be with you  
The colors of Christmas are still shining bright  
And I know what we're gonna do  
Anticipating, music is playing  
The magic is in the air  
All through the season  
Yo've been the reason  
I have so much love to share

Kiss me at midnight  
Dance until the morning light  
Party into the New Year  
All of my friends are here  
And when the timing's right  
Kiss me at midnight

Kiss...  
Kiss me at midnight  
Kiss...

We've been making promises in the dark  
Our resolutions  
As a brand new year is about to start  
And we're together.  
Celebrating, no more waiting

Our time has arrived  
The beat in my heart  
As the countdown starts  
Just look into my eyes  
Kiss me at midnight  
Dance until the morning light  
Party into the New Year  
All of my friends are here  
And when the timing's right  
Kiss me at midnight

Baby, it's New Year's Eve  
Time we can believe  
In making wishes  
Dreams come true  
Just for me and you

*[break]*

Kiss me at midnight  
Dance until the morning light  
Party into the New Year  
All of my friends are here  
And when the timing's right  
Kiss me at midnight

Kiss me at midnight  
Dance until the morning light  
Party into the New Year  
All of my friends are here  
And when the timing's right  
Kiss me at midnight

*[to fade]*

Kiss me at midnight  
Dance until the morning light  
Party into the New Year  
All of my friends....
