Baby, baby, we can do all that we want
We're gettin' nasty, nasty, we're getting freaky, freaky,
uh, uh, uh
Baby, baby, we can do more than just talk
'Cause I can hear ya, hear ya, and I can see ya, see ya,
oh, oh

Baby, baby we can do all that we want
We're getting nasty, nasty, we're getting
Freaky, freaky, freaky, freaky

Digital, digital, get down, just you and me
You may be twenty thousand miles away
But I can see ya and baby, baby, you can see me

Digital, digital, get down, just what we need
If we can get together naturally then
We can, we can, get together on the digital screen

Every time I'm sittin' home alone girl
I can't wait to get you on the phone girl
So, pick it up, babe
I can see everything you do

Bouncin' me from satellite to satellite
I love the things you do for me so late tonight
You turn me on, girl
It's like, I'm right there next to you, yeah

Can we get connected?
I need some love and affection, baby
I'll call you on the phone
I hope that I get through

If you're in the mood and on the phone
Here's what you do, leave a message
You know the kind I like to get back to

Digital, digital, get down, just you and me
You may be twenty thousand miles away
But I can see ya and baby, baby, you can see me

Digital, digital, get down, just what we need
If we can get together naturally then
We can, we can, get together on the digital screen,
yeah

I lose my mind just when you're speaking
I see you on the screen, I get to freaking
So, get down, babe
And I'll get down for you

I get so excited when I'm watching, girl
I can't wait to see you touch your body, girl
It's just me and you
So, we can do what we gotta do, yeah

Can we get connected?
I need some love and affection, baby
I'll call you on the phone
Hope that I get through

But if you're in the mood and in the home
Here's what you do, leave a message
You know the kind I like to get back to

Digital, digital, get down, just you and me
You may be twenty thousand miles away
But I can see ya and baby, baby, you can see me

Digital, digital, get down, just what we need
If we can get together naturally then
We can, we can, get together on the digital screen

Digital, digital, digital, digital
Get down, get down
Digital, digital, digital, digital
Get down, get down

Alert, your satellite [Incomprehensible] has been
interrupted

Baby, baby, we can do more than just talk
'Cause I can hear ya, hear ya and I can see ya, see ya,
oh, oh
Baby, baby, we can do all that we want
We're getting nasty, nasty, we're getting freaky,
freaky, uh, uh

Baby, baby we can do more than just talk
'Cause I can hear ya, hear ya, and I can see ya, see ya,
oh, oh
Baby, baby we can do all that we want

We're getting nasty, nasty, we're getting digital

Digital, digital, get down, just you and me
You may be twenty thousand miles away
But I can see ya and baby, baby, you can see me

Digital, digital, get down, just what we need
If we can get together naturally then
We can, we can, get together on the digital screen

Digital, digital, get down, just you and me
You may be twenty thousand miles away
But I can see ya and baby, baby, you can see me

Digital, digital, get down, just what we need
If we can get together naturally then
We can, we can, get together on the digital screen

Digital, digital, get down, get down, just what we need
