What's the riddle of it all
What's the riddle on her mind
It's impossible to find

I'm, I'm out to find the solving key
To this woman's mystery
I need to see her more than I dream her
More than two secret eyes

What is going on, what is going on in her life
(In her life)
What is showing up, what is showing up in her smile
(In her smile)

What's the riddle of it all
What's the riddle on her mind
It's impossible to find
What's the riddle of it all
What's the riddle on her mind
It's impossible to find

She, she breezes in
Yes I can win
It seems I conquer all my soul
So I can reach her heart
'Cause she's too far from being touched

What is going on, what is going on in her life
(In her life)
What is showing up, what is showing up in her smile
(In her smile)

What's the riddle of it all
What's the riddle on her mind
It's impossible to find
What's the riddle of it all
What's the riddle on her mind
It's impossible to find
It's impossible to find

I am only scared from wonder
From delirious I'm running

Tell me, where's this source of magic
This hide-and-seek makes me an addict

What's the riddle of it all
What's the riddle on her mind
It's impossible to find
What's the riddle of it all
What's the riddle on her mind
It's impossible to find

What's the riddle of it all
What's the riddle on her mind
It's impossible to find
What's the riddle of it all
What's the riddle on her mind
It's impossible to find
