Ooh...ooh...ooh...ooh...ooh...

I was young
When I met you
You were my first love
Love was new, oh, whoa

But then you went away
And broke my little heart
I learned to live with pain
While we were apart

Time
Brought us back together again
We became lovers
We became friends

I just wanna thank you
For the love you gave
I just wanna thank you
For the love we made

I just wanna thank you
Just thank you
Â‘Cause even though weÂ’re not together
You know that IÂ’ll love you forevermore (Forevermore)

I look back
On those days
WeÂ’ve gone our
Separate ways

Ooh, ooh, ooh, I still think
Thoughts of you
A love that we once shared
Will always shine through

Time
Taught us how to let our grow
How it all happened
I still donÂ’t know

I just wanna thank you
For the love you gave
I just wanna thank you
For the love we made
I just wanna thank you
Just thank you
Â‘Cause even though weÂ’re not together
You know that IÂ’ll love you forever more,
whoa...oh...oh...

Time
Brought us back together again
We became lovers
We became friends

I just wanna thank you
For the love you gave
I just wanna thank you
For the love we made

I just wanna thank you
Just thank you
Thanks a million, boy
Ooh...ooh...ooh...ooh...

I just wanna thank you
For the love you gave
I just wanna thank you
For the love we made (Ooh...ooh...ooh...ooh...)

Thank you
Just thank you
Thank you, boy
Ooh...ooh...ooh...ooh...ooh...

I just wanna thank you
For the love you gave
I just wanna thank you
For the love we made (Ooh...ooh...)

I just wanna thank you
Just thank you
Â‘Cause even though weÂ’re not together
You know that IÂ’ll love you forevermore, whoa...
