I'll be good for you, ohh
Ya'know, I'll be good for you baby, yeah

I'll be good for you
I ain't gonna take my love away
And I will love you more girl every day
I'll be good for you
Baby girl, it's plain to see
That our love was meant to be

I know, you're hearts anticipating
And my love is on your mind
Well, don't you worry, I won't keep you waiting
'Cause I ain't never seen a lady so fine, yeah

I know you want me too, it's in your eyes they say you
do
They're telling me you'll open your heart to me, yeah
'Cause if you want me to, I'll sacrifice my world for you
And show you the way loves supposed to be yeah

I'll be good for you
I ain't gonna take my love away
And I will love you more girl every day
I'll be good for you
My baby girl, it's plain to see
That our love was meant to be

Now I know you think, I must be faking
I promised all these things right from the start
So don't you rush into decision making
'Cause I just wrote this song to tell you my heart

I wanna be with you and girl there's nothing I won't do
To make you see that this is where you should be
'Cause baby we can do, anything you wanna do
Girl, I wanna be a part of your fantasy

I'll be good for you
I ain't gonna take my love away
And I will love you more girl everyday
I'll be good for you

My baby girl, it's plain to see
That our love was meant to be, yeah

Ohh yeah yeah yeah
Ya'know, I'll be good for you baby

I can be good for you
Tell me, what you want to do?
Baby girl, it's plain to see
That our love was meant to be
(I'll be good for you)

I can be good for you
Tell me, what you want to do?
Baby girl, it's plain to see
That our love was meant to be
(I'll be good for you)

I can be good for you
Tell me, what you want to do?
Baby girl, it's plain to see
That our love was meant to be
(I'll be good for you)

I can be good for you
Tell me, what you want to do?
Baby girl, it's plain to see
That our love was meant to be
(I'll be good for you)

I can be good for you
Tell me, what you want to do?
Baby girl, it's plain to see
That our love was meant to be
(I'll be good for you)

I ain't gonna take my love away
And I will love you more girl everyday
I'll be good for you
My baby girl, it's plain to see
That our love was meant to be, yeah
